

EWU SCHOOL of EDUCATION

internships at-a-glance

1. Internships are NOT offered during summer session.
2. All internship courses are Pass/Fail.
3. Principal Certification Students – see specific internship worksheet for details – the following instructions do not apply to you.
4. It is recommended that students complete their internship after having completed their first or second sessions, so they will have some coursework to use in the experience.
5. Some programs' internship courses have prerequisites, so make sure to complete those first. *For example: Health & Physical Education require Health Basics before the Health internship.*
6. Students are responsible for securing their own internship placement. Make sure to check your program's internship placement requirements before contacting the site.
7. Early Childhood and Literacy Graduate students do not need to complete an internship verification form because their internships are not at external sites.
8. All programs except Early Childhood and Literacy: Should complete the EWU online [Internship Verification \(ewu.edu\)](http://ewu.edu). *Your internship faculty reserves the right to ask you to find a new internship.* We have built in the Build Verification form to the Intern form, so your mentor and principal will be notified via email for approval.
9. Enroll in your internship course on EagleNet.
10. You are not required to resubmit your internship site application and building forms for consecutive internship courses at the same internship site. If you switch internship sites, you must submit a new verification and building form.

Program	Internship Courses
