

Obtaining an EWU Disability Permit

A state disability plate or placard is required to obtain an EWU disability permit. Visit your doctor to request a state disability parking permit form. Both the applicant and the doctor must sign and complete the form.

Deliver the signed form to a Washington State Vehicle Licensing Center. You may request either license plates or a hanging placard. Temporary permits will only be issued on a hanging placard.

After receipt of placard/license plates and an identification card, visit Parking and Transportation Services to obtain your EWU disability parking permit. Parking and Transportation Services will make a copy of your identification card and placard for record keeping purposes.

Disability permits are charged at the fringe pricing rate. They can be purchased annually or quarterly according to the duration of time before expiration of the state disability permit.
