

Catalyst and SIERR Parking Guidelines

Catalyst:

100 annual parking permits are available from September 1 through August 31 at the CORE price; please visit our website to purchase these online. [Permits – Parking & Transportation Services \(ewu.edu\)](#) After the 100 are sold, you must obtain parking through Reef.

SIERR:

25 annual parking permits are available from July 1 – June 30 at the CORE price, to accommodate the semester schedule; please visit our website to purchase these on line. [Permits – Parking & Transportation Services \(ewu.edu\)](#). Once the 25 are sold, you must obtain parking through Reef.

DUAL Permits:

If you are approved to have a dual permit for both locations and you currently have a Catalyst permit, you have two options:

- 1) You can use your current Catalyst permit at both locations until you renew your Catalyst permit by September 1. IF you do not renew your permit on the July 1 renewal time frame, you will not be eligible for the payroll deduction as that closes August 1.
- 2) The dual permit will transition this year to the July 1 – June 30 annual timeframe whether you buy it now or by September 1.
- 3) In order to allow parking at both locations, you will need physical permits for the Catalyst and SIERR lots UNTIL Reef transitions to License Plate Recognition this fall. Parking will extend the two months' parking at the SIERR lot by providing your license plate to Reef if you choose not to renew now but to renew on the September 1 date.
- 4) Next year, dual permits must be purchased by July 1 and will continue to be good at both locations annually throughout the year.

If you are a 20-year employee, the 50% reduction does apply to the permit cost and we are notified of those individuals via HR.

Some have asked about garage parking at the SIERR lot. You can obtain a stall through Reef at \$100/mo.

Please call Parking at x7275 with any questions or to purchase your permit over the phone.
