# CLASS STANDING OF WRITERS WHO VISIT THE WC

# Impact on Student Success

85.7% of first-time freshman in fall who attended the WC were retained the following fall

68% of the students who attended the WC received grades greater than 3.0

91% of the writers reported they produced a better piece of writing because of their visit to the WC

# Student Demand for WC Services

- Every quarter, the Writers' Center has to waitlist or deny service to students seeking our services, because current funding doesn't meet student demand.
- In Winter 2016, current staffing could not meet **student demand, necessitating long waitlists and stranding over 800 students without WC services.**
- In week 10 of Winter 2016, as students were busily preparing their final assignments, **the WC turned away 252 students.**
